PROFILE

Fully bilingual (EN/FR) frontend engineer specialized in Angular and React/Next.js, with production experience on banking applications used by millions of customers and on a cloud-native micro-services ERP. MSc in Information Systems & Software Engineering (2026). I ship fast and clean, from spec to production.

PROFESSIONAL EXPERIENCE

Apr 2026 – Jul 2026

Frontend Developer (graduate internship)

Formuloo · Douala

- Built the frontend of **Formuloo OS**, a **cloud-native micro-services ERP** (**Angular, Django**).
- Hybrid **contract-first / code-first** design approach: API contracts defined upfront, fast implementation iterations.

Oct 2024 – Feb 2025

Web & Mobile Developer

Londo Technology · Douala

- Built and maintained **5 banking and e-commerce applications in production** — Fly Banking, Agency Banking, BCI Online, Mon Panier, Click Cadyst — used by **millions of banking customers**.
- Web and mobile interfaces (**Angular, NestJS, Ionic**) within an 8-developer team.
- Refactored critical code for performance and maintainability gains.

May – Aug 2023

Mobile Developer

OneTouch Labs

- Online food-delivery system (**React Native, Spring Boot**), from user research to validated solution.

Jun 2021 – Nov 2022

Web Developer

Get Ready African Solutions

- Company website designed, launched and maintained; optimized existing solutions.

PROJECTS & OPEN SOURCE

- **Splash** — 17 production-ready animation patterns across React, Next.js, Vue 3, React Native and Flutter. Bilingual EN/FR. splash-silk.vercel.app
- **PolicyCraft** — published npm package: Supabase RLS policies generated from plain English. npmjs.com/package/policycraft
- **KreativEinfluss** — founder of a web studio: digital products for fintech, e-commerce and creative clients.
